## **Welcome to our June issue,**

The rain has continued on a weekly basis over the last month, which I am sure all our plants, gardens, and rain water tanks are enjoying. It is great to be able to water and feed our plants again with rain water.

Yet again we seem to be facing a slow start to the season with very few plants shown at the May meeting. Congratulations to Shane Moeller for his Pharaoh's Dream 'Dural', which was the best plant of the night.

The SAROC show has come and gone and congratulation to Chee Ng for winning the best Cymbidium. Fully open plants were hard to find, so many thanks to Chee, Ben, Graham, Max, Barry and Peter for presenting 24 plants on our display. It is difficult for our club to compete with the mixed orchid clubs at this time of the year, but what we did present on our display, was a credit to everybody involved.

The display was built by Ben Knobben and Graham Morris and won best display of 21 to 40 plants. Many thanks Ben and Graham and everybody who helped build it. A wonderful display. Photos are in this edition.

It was a great presentation last month, from Eddie Ng, which showed he is growing some wonderful orchids. I hope you all brought his book, along with a compot that could have a future Grand Champion growing amongst them.

Our guest speaker for June will be Graham Morris, presenting his recent tour of NSW orchids nurseries. Look forward to seeing Royale, Giles/Wallace, Barrita and Serhan's nurseries all growers of high-quality cymbidiums, and a lot of new, early season flowers not seen before.

Our shows are just around the corner with Munno Para from the 13<sup>th</sup> to 20<sup>th</sup> July, and West Lakes from the 24<sup>th</sup> to 31<sup>st</sup> August. If you haven't put your name down to help on the trading table, and on the judging night, please do so at the next meeting. We need lots of help to make the shows a success.

I look forward to seeing you all on the 26<sup>t</sup>

Kind Regards      Graham Fear

\*\*\*\*\*

**Munno Para Winter Show    Sunday 14<sup>th</sup> July to Saturday 20<sup>th</sup> July.  
Put in Saturday 13<sup>th</sup> from 5.00pm. Takeout Saturday 20<sup>th</sup> July 5.00pm**

Entry is via the eastern entrance. Turn left at the Uley Road traffic lights, then right at the roundabout (third entrance or Cheap as Chips).

Doors will be open at 5 00 pm Saturday 13<sup>th</sup> July.

Put in is from 5 00 pm— 5 45 pm.      Judging starts at 6.00pm.

All displays to be completed and fenced by 10.30pm.

Any person with plants for displays, but not in judging, may place them in any of the display areas.

Open Division  
First Division .  
Second Division

Will be sign posted and in the best lighted areas.  
As above  
As above

**There are the five (5) colour classes: -**

Predominately White/Cream	Predominately Yellow/Green	Predominately Red/Brown
Predominately Pink	Any Other Colour	

**There are now four (4) sizes: -**

Large Standard .....	Over 100 mm,	Small Standard.....85 mm—100 mm
Intermediate.....	60 mm— 90mm,	Miniature.....Under 60mm

Measurements are horizontally across the widest part of the flower.

**There are three (3) divisions:      Open              First              Second**

All plants must be clean and virus free or the judges or Show Marshal will reject them. The judge's decisions are final. Should any protest be lodged, the Show Marshal will call a panel to give a decision

**The sole sponsor shall be Munno Para Shopping City.**

**Munno Para Show 2019   Prize schedule**

Grand Champion	\$50
Champion Seedling	\$10
Champion large standard seedling	\$10
Champion small standard seedling	\$10
Champion intermediate seedling	\$10
Champion miniature seedling	\$10
Champion large standard	\$10
Champion small standard	\$10
Champion intermediate	\$10
Champion miniature	\$10
Champion of division (2)	\$10
All plants granted First Prize cards	\$5
All plants granted Second Prize cards	\$3
All plants granted Third Prize cards	Card only

**There will be a payment of \$3.00 per plant, for all show quality plants displayed.**

Lists of displayed plants must be given to Show Marshall

Takeout of plants is after 5pm on Saturday July 20th

Foliage plants may be used to supplement displays.

**At least two (2) people are required at all times, to act as Show Marshalls around the displays**

**Shopping hours**

**Advance Notice**

**The West Lakes Show put in is Saturday 24th August**

**The Show is open from Sunday 25th till Saturday 31st August**

**Take out is Saturday 31st August, from 5.00pm**

**During a recent visit to Sydney, some of the good growers there told me about a new rat and mouse bait, which was performing much better than the baits which they had previously used. There are rodents roaming your growing area continually, and strategically located baits used constantly, might just prevent them damaging your potential Grand Champion. Below is some information about it from the internet**

## **First Strike Soft Bait Review 2019 (RAT/MICE Rodenticide Poison)**

· First Strike Soft Bait Review 2019(RAT/MICE Rodenticide Poison)

Is your current bait not luring rats and mice? Use the First strike soft bait to lure and kill rats within a few days of consuming. Read this First Strike Soft Bait review to know why I am suggesting this bait.

Before rushing to buy the [best rat baits on the market](#), you should read reviews and know if the bait you are buying is effective in performance or not. Why waste money on a bait poison or mouse killer that will not give you the results that you deserve? That's not the case with the First strike soft bait from Liphatech. This bait kills slowly, but it will clear the rat infestation in your home within a few weeks of using it.

## **First Strike Soft Bait Review 2019**

Just as its name suggests, First strike soft bait is lethal and easy to use bait that is placed in bait station rods easily due to its soft nature. It contains difethialone as the active ingredient. In addition, the soft bait doesn't have wax, but an attractive aroma that makes [rats and mice want to have a bite](#) of the bait. Also, the bait doesn't melt like other poisons and this makes cleaning and servicing of the bait stations to be easy and fast. Apart from that, the First strike soft bait has bromadiolone which takes effect after some days of consuming. So, in this case, the mice will die after 4 to 5 days of consuming it.

For this bait poison to take effect, you need to continuously feed the rodents for at least 10 to 15 days. Or else, no rats or mice will be killed. Furthermore, you have to identify areas where mice or rat activity is rampant and place the bait stations in these areas. You can use this bait inside or outside your house. But ensure that you strategically place them. For rats, you can utilize 2 to 8 packs per station and for mice, 2 to 4 packs. Also, the bait for rats should be placed after 15 feet and for mice after every 10 feet. Avoid placing the bait in places where pets and kids can access it as it can be harmful to them as well.

6

**There is a huge amount of information about this bait on the Internet It comes in small satchels (like teabags), which are easily nailed to something in the rodent roaming zone. Reports say that they will take this bait before most other baits offered. I will have some available at the June meeting. Bags of 10 baits \$5.00, Bags of 25 baits \$10 It is available on the internet, and select outlets in SA, but only in very large buckets**

Prices effective from January, 2018

## ORGANIC BASED SPECIALIST FERTILISERS

### Bush Tucker

An organically based fertiliser, developed for the specialised needs of Australian native plants - even the most phosphorous sensitive. 20kg bag \$30

### Gyganic

Perfect for fruit and citrus. Gyganic has been specifically developed to enhance fruit size, quality and taste. 20kg bag \$30

### Kahona

Ideal for all acid loving plants such as Camellias, Gardenias, Azaleas and Rhododendrons. 20kg bag \$30

### Sudden Impact for Roses

Ideal for all flowering and fruiting plants - not just roses. 20kg bag \$30  
1L Bottle \$10

### Strike Back for Orchids

Ideal for the all potted flowering and fruiting plants - not just orchids. 20kg bag \$30

### Strike Back for Orchids Liquid

Ideal for all potted flowering and fruiting plants - not just orchids. 1L bottle \$10

### Sudden Impact for Lawns

Ideal for new and established lawns, along with other non-flowering plants such as palms, ferns and conifers, as well as leafy vegetables and herbs. 20kg bag \$30

### Upsurge

Ideal for turf to improve soil structure and increase earthworm activity, root growth and resistance to pests and disease. 7.5kg bag \$16

## ORGANIC FERTILISERS

### Bounce Back

A high quality, general purpose fertiliser, specifically formulated for the most effective and safe feeding of all your garden plants. Ideal for winter and summer application. 100% organic and ACO registered. 20kg bag \$13

### Rapid Raiser

A high quality, boosted general purpose fertiliser. The increased phosphorus level makes it ideal for planting and promotes faster, healthier and sustained growth for all plants. Particularly suitable for heavy feeding plants such as roses and citrus. 100% organic and ACO registered. 20kg bag \$15

### Blade Runner

A high quality, general purpose lawn fertiliser. Ideal for all use on all lawns, particularly new lawns and summer application of established lawns where the slow release properties help to prevent thatch build up. 100% organic and ACO registered. 15kg bag \$15

### Rocket Fuel

Specifically developed for growing healthy, organic fruit and vegetables. A portion of all retail sales go to supporting the Stephanie Alexander Kitchen Garden Foundation. 100% organic and ACO registered. 15kg bag \$13

### Cock'n'Bull

A mix of cow and chicken manure, Cock'n'Bull is ideal for conditioning the soil whilst adding nutrients. A perfect additive to any garden or veggie bed. 100% organic and ACO registered. 30L bag \$7

### Meatworks Blood'n'Bone

An all-purpose organic fertiliser manufactured from meat and bone meal. 25kg bag \$30

## ORGANIC FERTILISERS

### Seamungus Pellets

Ideally suited for establishing new plants (particularly bare-rooted roses) and for use on natives. Seamungus can also be used as a plant tonic to revitalise all your plants throughout the year. 100% organic and ACO registered. 20kg bag \$20

### Seamungus Liquid

Ideally suited for establishing new plants (particularly bare-rooted roses) and for use on natives. Seamungus can also be used as a plant tonic to revitalise all your plants throughout the year. 1L bottle \$10

### Seamungus Green

The smaller crumble form makes Seamungus Green ideal for lawns and in dry conditions where more immediate breakdown is required. It can also be used as a plant tonic to revitalise all your plants throughout the year. 100% organic and ACO registered. 20kg bag \$22

### Whoflungdung

Biologically activated, nutrient rich, weed free, absorbant super mulch. 20kg bale \$14

### GOGO Juice

A pro-biotic for your soil and plants, GOGO Juice provides all the benefits of applying liquid kelp, seaweed and humic acid, whilst adding beneficial bacteria to assist in breaking down the organic matter, maximising the nutrients available to your plants.

1L Concentrate \$10

2L Concentrate \$15

2L Ready to Use \$10

**.The next Meeting of the  
Cymbidium Orchid Club of South Australia Inc.**

**will be held on**

**Wednesday 26th June 2019  
at the**

**Burnside Community Centre, 401 Greenhill Road, Tasmore, SA**

**Meetings are held on the 4<sup>th</sup> Wednesday of each month,  
February to November**

**Program - June 2019 Meeting**

- 7.00pm Hall is open. Helpers required to assist setting up seating  
Beginner's Group meet on the stage. New members are most  
welcome.**
- 7.15pm Beginner's Group meet on stage at front of hall**
- 8.00pm Main meeting to open. Our President will welcome any visitors or  
new members, and make several announcements.**
- 8.25pm Graham Morris will show photographs of a recent visit to some  
very special cymbidium nurseries in Sydney. There was a  
surprising number of early flowers on display, with some very  
special plants not seen by many growers. You will want some of  
the plants to be shown. Don't miss it.**
- 9.15pm Judges will discuss any plants displayed on the night. No single  
flower competition.**
- 9.30pm Meeting closes. Please remain for a light supper and a chat with  
other members**

**The next meeting is on Wednesday 24th July 2019.**

We have a number of back issues of this magazine available for **new members**.  
If interested, please make a list of magazine dates which you have, and bring it to next the next  
meeting, and I will try to supply back copies.

A copy of a flask order from the estate of the late David Gynn, from NSW is attached to this newsletter. **David passed away earlier this year, and left a young family grieving.**

The NSW Cymbidium Society is managing this listing to support his family. There are some matings which are unlikely to be available in future. Consider supporting this offering. Pickup is available locally from Pauline McLean.

Orders managed by Trevor Hughes phone 0409 442 126

firetail@firetailorchids.com.au

Orders close at the end of June, this year.

**If you would some of the First Strike rat & mouse bait, it will be available during the June meeting, from the trading table.**

**This may be the only time small quantities are available.**

**It is commercially dispensed by the manufacturer in 1 and 5Kg buckets, which cost well over \$100 each.**

**Rodents are ever present, and can cause major damage to your flowers and plants. Be prepared.**

Bags of TriSodium Phosphate are now available from the trading table (for sterilizing cutting tools etc). One Kilogram bag \$10, 500 grams \$5.00. Larger bags are available on request. Note, these prices are much cheaper than you can get privately.

## **May meeting Winning plant descriptions**

### **Flower of the night, and best flower in Open Division, was Pharaoh’s Dream ‘Dural’**

It was growing in a 20cm pot, boasting four inflorescences, with thirteen or more individual flowers on each spike. The flowers are fairly well filled in, pure yellow in colour, and nicely complemented by solid orange/brown spots on the lip. The strong spikes, coupled with excellent flower substance, enabled the plant to put on a very impressive show.

Well done by the grower, Shane Moeller.

### **Best in Second Division**

A first time flowering of Beverley Cobb x Shocking, was grown in a 20cm pot, in a mixture of fine bark, coco chips and perlite. It had a single flower spike with seven open flowers. It was a caramel colour, with a lovely proportioned lip with dark banding and spots. It was a nicely grown plant. It has now been registered as Rock Me.

Congratulations to the grower Adrian Bockmann

# NEUTROG®

Users of Sudden Impact for Roses consistently report:

- increase in flower numbers
- increase in bloom quality
- continued plant vigour
- sturdy growth
- resistance to fungal diseases like black spot, rust & powdery mildew
- marked reduction in preventative fungal spraying

Sudden Impact for Roses is recommended and endorsed by the National Rose Society of Australia, Heritage Roses in Australia and the Rose Societies of SA, Vic, NSW, QLD, WA and the South West Rose Group of WA.
