Presidents Message October 2022

Welcome to our October issue

A fantastic turn out of plants at the September meeting, especially in Second Division. The usual amount in Open Division and a reasonable amount in First Division.

Best in open division and also plant of the night was (Mem Amelia Earhart x Pacific Sparkle) No.5, grown by John Moon

Best in First division was Devon Biggs, grown by Graham Fear

Best in Second division was Uncle Everett 'Dark Red' grown by Susan and Gary Hollands

Best Seedling was (Mem Amelia Earhart X Pacific Sparkle) No.5, grown by John Moon

We might have to bar Adrian Bockmann from the single flower competition, as he won it again in September, which if I recall, is now three in a row. Well done Adrian

It was another great presentation at the September meeting by Graham Guest, proprietor of Guest Orchids, with an insight in growing

Cymbidiums in China, and also a look at different tourist areas, and what seemed a lot of drinking and eating. We look forward to Graham's Italian trip next year.

Don't forget the November meeting will be our end of year dinner at the Warradale Hotel on the 23rd November. Last year's dinner was excellent and all that went loved it. So don't forget to pay for you and or your partner at the October meeting. The cost is \$50 a head for the dinner. You pay \$25 a head with the club paying the balance of \$25 per head for you and or your partner. A great three-course dinner, great food and great value. Don't miss out. Cash or card is fine. Payment must be made at the October meeting unless otherwise arranged with Treasurer, Christine

Our guest speaker for October meeting was to be Zel Basic from Western Australia, but unfortunately Zel's mother is terminally ill and he can't make the trip in case she passes. Zel has booked in for March next year, so we can look forward to his presentation then.

Our entertainment will now be a look at this year's Cymbidium Orchid Society of Victoria (COSV) Spring Show in September, which will give you a chance to see all their prize winning plants and displays, and is not to be missed.

We will also be giving each member on the night, a special plant that has been cloned for our members. All information about the plant is in this issue, so don't miss out. **You have to be at the meeting to get your plant.** Many thanks to Pauline and Kevin McLean for flasking the plants, and to Moss and Rosemary Bray for growing them on to the size they are now.

The October meeting is your last chance for the year on judging of your plants on the night. Bring all your plants and any single flowers along on the night. Don't forget this could be the final showing that gets you over the line for one of the aggregate prizes in the new year. I look forward to seeing you all at the meeting on Wednesday, 26th October.

Kind Regards and stay safe and well.

Graham Fear President

Khanebono 'Jacinta' is a high quality intermediate pink cymbidium, flowering in peak flowering time, making it very good for the showbench.

It has won numerous major prizes, and is proving to be a great parent plant.

In the next few pages of this magazine you should learn a lot more about it.

The next Meetings of the Cymbidium Orchid Club of South Australia Inc.

On Wednesday 26th October 2022, starting at 8.00pm
Beginners meet on the stage at front of hall from 7.15pm

Bring your flowering plants for judging. Single flower competition is still on.

There will be a presentation showing the recent
Cymbidium Orchid Society of Victoria (COSV) Spring Show.

Some really good and new plants were shown.

This is always a great show and regularly presents future major show winners

There will be a great giveaway of a plant of Khanebono 'Jacinta' for all attendees.

Miss coming and you miss out

SUMMER IS HERE
PROTECT YOUR
GARDEN WITH

POPUL8™

POPUL8 is designed to occupy and populate the biological space in the soil and on plant roots which may otherwise be an available space for plant pathogens to inhabit - hence its name.

POPUL8 contains a diverse microbiome of 200+ naturally occurring microbes, plus a further 40 specifically selected bacteria and fungi have been isolated, identified and added for the individual and joint symbiotic purpose and beneficial characteristics.

The number and diversity of living microbes in POPUL8 can positively influence nutrient cycling, nutrient liberation, nitrogen fixation, production of plant growth hormones, inhibition and suppression of plant pathogens and bio stimulation.

Prices effective from January, 2018

ORGANIC BASED SPECIALIST FERTILISERS

Bush Tucker
An organically based fertiliser, developed for the specialised needs of Australian native plants - even the most phosphorous sensitive. **20kg bag \$30**

Gyganic
Perfect for fruit and citrus, Gyganic has been specifically developed to enhance fruit size, quality and taste. **20kg bag \$30**

Kahoona
Ideal for all acid loving plants such as Camellias, Gardenias, Azaleas and Rhododendrons. **20kg bag \$30**

Sudden Impact for Roses
Ideal for all flowering and fruiting plants - not just roses. **20kg bag \$30**
1L Bottle \$10

Strike Back for Orchids
Ideal for all the potted flowering and fruiting plants - not just orchids. **20kg bag \$30**

Strike Back for Orchids Liquid
Ideal for all potted flowering and fruiting plants - not just orchids. **1L bottle \$10**

Sudden Impact for Lawns
Ideal for new and established lawns, along with other non-flowering plants such as palms, ferns and conifers, as well as leafy vegetables and herbs. **20kg bag \$30**

Upsurge
Ideal for turf to improve soil structure and increase earthworm activity, root growth and resistance to pests and disease. **7.5kg bag \$16**

ORGANIC FERTILISERS

Bounce Back
A high quality, general purpose fertiliser, specifically formulated for the most effective and safe feeding of all your garden plants. Ideal for winter and summer application. 100% organic and ACO registered. **20kg bag \$13**

Rapid Raiser
A high quality, boosted general purpose fertiliser. The increased phosphorus level makes it ideal for planting and promotes faster, healthier and sustained growth for all plants. Particularly suitable for heavy feeding plants such as roses and citrus. 100% organic and ACO registered. **20kg bag \$15**

Blade Runner
A high quality, general purpose lawn fertiliser. Ideal for all use on all lawns, particularly new lawns and summer application of established lawns where the slow release properties help to prevent thatch build up. 100% organic and ACO registered. **15kg bag \$15**

Rocket Fuel
Specifically developed for growing healthy, organic fruit and vegetables. A portion of all retail sales go to supporting the Stephanie Alexander Kitchen Garden Foundation. 100% organic and ACO registered. **15kg bag \$13**

Cock'n'Bull
A mix of cow and chicken manure, Cock'n'Bull is ideal for conditioning the soil whilst adding nutrients. A perfect additive to any garden or vegie bed. 100% organic and ACO registered. **30L bag \$7**

Meatworks Blood'n'Bone
An all-purpose organic fertiliser manufactured from meat and bone meal. **25kg bag \$30**

NSW

ORGANIC FERTILISERS

Seamungus Pellets
Ideally suited for establishing new plants (particularly bare-rooted roses) and for use on natives. Seamungus can also be used as a plant tonic to revitalise all your plants throughout the year. 100% organic and ACO registered. **20kg bag \$20**

Seamungus Liquid
Ideally suited for establishing new plants (particularly bare-rooted roses) and for use on natives. Seamungus can also be used as a plant tonic to revitalise all your plants throughout the year. **1L bottle \$10**

Seamungus Green
The smaller crumble form makes Seamungus Green ideal for lawns and in dry conditions where more immediate breakdown is required. It can also be used as a plant tonic to revitalise all your plants throughout the year. 100% organic and ACO registered. **20kg bag \$22**

Whoffungung
Biologically activated, nutrient rich, weed free, absorbant super mulch **20kg bale \$14**

GOGO Juice
A pro-biotic for your soil and plants, GOGO Juice provides all the benefits of applying liquid kelp, seaweed and humic acid, whilst adding beneficial bacteria to assist in breaking down the organic matter, maximising the nutrients available to your plants.

1L Concentrate \$10
2L Concentrate \$15
2L Ready to Use \$10

From the Ground Up

From the Ground Up is a complete and comprehensive, state-based garden guide for gardeners. The books utilise the recommendations of many plant experts, coupled with the fantastic knowledge and experience from our authors - Sophie Thomson (SA edition), Jane Edmondson (VIC edition) and Linda, Sandra and Graham Ross (NSW edition). **\$35 each**

• Prices include GST • Free delivery to agreed delivery points for minimum 1 tonne / pallet orders
• These prices are strictly for members only and are not to be knowingly disclosed to the general public

**Year round
fertilising for
year round
health**

Like humans and animals, plants require regular feeding throughout the year - at least once in each season.

Happy, healthy, well nourished plants are more resistant to pests, diseases, heat stress and frost.

The programs have been specifically developed by experts who rely upon optimum plant growth to earn their living.

To find the Neutrog feeding program that is right for you, log onto our website www.neutrog.com.au

25% Off Perlite

Available 1st November 2022 to 30th November 2022
(There may have been a price increase since your last purchase)

Neutrog are great supporters of our Club.

Please support them wherever possible and tell others about them

The Cymbidium Orchid Club of South Australia, was actively involved in developing and testing Strike Back for Orchids and endorses it's use.

PREPARE YOUR LAWNS FOR THE SUMMER HEAT

Sudden Impact for Lawns now comes coated with Neutrog's highly anticipated advanced biological POPULB!

Sudden Impact for Lawns + POPULB is a dual-purpose product designed to both stimulate growth and simultaneously fight pathogenic disease on all types of lawns, hedges, and trees.

The balance of nutrients and microbes is the secret to the success of Sudden Impact for Lawns + POPULB. The ratio of nitrogen and potassium is ideal for promoting growth, the levels of iron and magnesium have been boosted and the 240+ microbes in POPULB help with the nutrient liberation, disease suppression and growth promotion.

Free call 1800 656 644
neutrog.com.au

Rats and mice are active in our gardens at the moment. First Strike Rodenticide is very effective in controlling these pests.

Available from Graham Morris 0419 823 724. Call if you need some.

Packs of 10 baits \$5.00, Packs of 25 \$10.00

Available at the Trading table at the back of the hall, on meeting nights.

17

This new product is getting good reviews from growers everywhere who have been using it for some time. Rodents cause lots of damage if not controlled. Be prepared. Have some on hand.

Easy Orchids (Glen Heylen)
 A huge commercial pot plant nursery
 located at Penfield, S.A.
 is closing down at the end of this season

Glenn tells me that he has homes for most of the
 plants remaining at the end
 of this flowering season.

Some advanced Den Speciosum plants, and some
 special paphiopedilums (slipper orchids) are still
 available at this time
