Presidents Message August 2023

Welcome to our August issue,

Another good turnout of plants at the July meeting, mostly Open Division but Second Divisions was well represented. Well done to the Second Division members. Not so many in First Division.

In Open Division, the winner was (Marilyn Thomas x Golden Embers), grown by Chee Ng. This was also Plant of the night and best seedling of the night.

In first Division the winner was (Golden Fox x Prized) grown by Adrian Bockmann.

In Second Division, Rift Valley 'Furnace,' grown by Mike Gray was the winner.

Don't forget there is no plants to be benched at the August meeting as West Lakes is only 3 days after.

Our guest speaker for July was Professor Calum Wilson, Professor of Plant Pathology at the Tasmanian Institute of Agriculture, who gave us an

excellent, in-depth presentation into orchid viruses. Well done Calum. Our members and the guest from other clubs would have been well educated, with 92 people present. It was a great turn out for the night.

At the August meeting we will be passing around the time sheets for the trading table at West Lakes from the 26th August to 3rd September. We need your help, so please help when you can. It was great to see many of you volunteering at Port Adelaide, so please put your name down when you can help, so we can adjust the number of people on the trading table at any one time.

The Port Adelaide winter show went extremely well, with a healthy number of plants in both open and second divisions, but unfortunately very few in first division. Thank you to all the judges, scribes, recorders, photographer and Trading Table and display builders for a great job, well done. Nearly 400 plants were sold from the trading table, with only three or four left on the table at close of business on the Sunday night. Thank you to everybody who helped with put on the Wednesday night, and everybody who helped on the trading table over the four days.

The Port Adelaide Winter Show Grand Champion and winner of Open division was Pink Dream 'Izzy' grown by John Moon.

Champion of First Division was (Satin Dragon x Blazing Fury) grown by Graham Fear

Champion of Second Division was (Royal Fare X Kelly's Winter) x (Blazing Fury X Khan Flame), grown by Francis & Janet Ling.

Well done to all the winners.

There will be a single flower contest at the August meeting **but there will be no plants to be judged due to the upcoming Spring Show at West Lakes starting just a few days later.** Bring along your single flowers and place them in the racks at the front of the hall, and vote for your favourite flower. Judging is by popular vote.

We will also have for sale at the meeting, the last of the Khanebono 'Jacinta' clones at \$10 each, with a limit of two per member. Most members at the time, received one at the start of the year. If these plants were for sale on the open market, they would sell for upwards of \$30 each, so if you would like another one, they will be available at the meeting.

John Gates from Sydney, one of Australia's best growers and hybridiser of cymbidiums, will be our guest speaker in August. You have all seen John's crossings in a presentation we did on his plants last year, and I know many of you have orders with Moss Bray for flasks from his hybridising.

John will be bringing some special plants for sale with him, so save your money, for not only the Khanebono 'Jacinta', but also some great crossings of Johns seedlings. There will be a few special plants from John in the raffle.

Don't forget to wear your badge and any new members, please give your birthday month to John Howard if you haven't already done so. A great seedling to be won at each meeting

Stay safe and well, and I look forward to seeing you on the 23rd.

Kind Regards. Graham Fear (President)

At the August meeting we will have a final release of clones of Khanebono 'Jacinta' that you were given one of, at the start of the year They will be \$10.00 each with a limit of two per member or membership. They have all grown exceptionally well under Moss & Rosemary's care, and are a bargain at this price.

Save up your money for these, and any plants John Gates may have to sell at the August meeting.

Khanebono 'Jacinta'

See this photograph in full colour, if it is sent to your email address or on our Web site. If you are a member and not receiving the magazine by email, please give your email address to this magazine Editor.

The day after the July club meeting, a number of our members were fortunate to be invited to attend a luncheon and factory tour of the Neutrog factory, at Kanmantoo.

Initially I enquired whether we could bring our guest speaker of the July meeting, Professor Calum Wilson, to see what was happening at the Neutrog factory, and possibly meet their R&D Manager, Dr Uwe Stroehler. It seemed that they might have some common working areas, and it would be great to get them to meet.

Neutrog holds a staff lunch each month, and invites a number of customers and other guests to attend. We were invited to bring along twelve members. There was a really nice lunch and refreshments provided, with an inspiring and entertaining address by the Managing Director, Angus Irwin. We were then allowed into the research laboratory, where Dr Uwe told us about some absolutely amazing research and developments they are undertaking.

They are not just into producing fertilisers. An exciting development is in the development of a range of soil fungus and bacteria, which is already giving amazing results. Doctor Uwe explained that they are isolating individual fungus and bacteria and testing what they can do in our soils. Different fungus and bacteria have different capabilities, but must also be tested as to how they perform when combined with other fungus and bacteria. Of particular interest to cymbidium growers, is the possibility that some of these can help prevent rot, a big problem for orchid growers, world wide. Initial testing is very promising.

Too soon, we had to leave the laboratory, and we were given a guided tour of the whole premises in a small bus, with a running commentary from Angus.

The Neutrog factory complex, surprised all of our attendees. It is huge. It receives about one thousand tonnes of chicken manure daily, and we were shown how they process it. Initially it is put into huge heaps, and treated with something to minimise odours. Each heap is turned over a number of times before being processed and bagged. There is some huge and specialised machinery in use. The huge packing and storage area, had huge, very tall stillages of pallets of bagged product ready to ship. They turn over in the order of one thousand pallets (each about one tonne in weight), every day or so, It must be a huge logistic exercise to move all the product produced.

Doctor Uwe and Angus, were obviously excited and confident with what is happening at Neutrog. The new advanced soil biologicals product POPUL8 is promising to be really big in the future.

We came away from the visit with a better appreciation of how we may be able to use the vast range of Neutrog products. Talk to any of the visitors. I am sure they would be happy to tell you more about what they got from the visit.

A photo of the visiting group is in this month's magazine.

Above Our visiting party, with Angus Irwin third from left

Below Dr Uwe Strocher showing some of his test samples

West Lakes Spring Show Sunday 27th August to Saturday 3rd September 2023

Entry is via the western end loading dock as per last year next to Woolworths. Park opposite the Lakes Hotel and the entrance is through the large iron gates.

Helpers during the week can get a free parking ticket from the Trading Table

Doors will be open at 5 00 pm Saturday 26th August for put in of plants.

Put in is from 5 00 pm— 5 45 pm. Judging starts at 6.00pm.

All displays to be completed and fenced by 10.30pm.

Any person with plants for displays, but not for judging, may place them in any of the display areas.

For judging of all divisions (Open, First and Second), signs will be posted in the best lighted areas, indicating where to place each category of plant. If you are doubtful about where to place a plant, get help from a judge, or place it where you think it should go, and if incorrect, the judges will move it to the correct area.

There are nine (9) colour classes: -

White/Cream	Yellow	Green	Red	Pink
Pure colour	Brown/Orange	Novelty	Any Other Colour (polychrome, non standard colour)	

There are four (4) sizes: -

Large StandardOver 100 mm, Small Standard.....85 mm—100 mm

Intermediate.....60 mm— 85 mm, Miniature.....Under 60mm

Measurements are horizontally across the widest part of the flower.

There are three (3) member divisions: Open First Second

All plants for judging or for sale on the trading table, must be clean, and not showing signs of virus, or the Judges or Show Marshal will reject them. The Judge's decisions are final. Should any protest be lodged, the Show Marshal will call an expert panel to give a decision.

West Lakes Show 2023 Prize schedule

Grand Champion	\$200
Champion of Divisions (2 prizes - excludes GC division)	\$50
Champion large standard	\$20
Champion small standard	\$20
Champion intermediate	\$20
Champion miniature	\$20
Champion Seedling	\$150
Champion large standard seedling	\$20
Champion small standard seedling	\$20
Champion intermediate seedling	\$20
Champion miniature seedling	\$20
Champion Specimen	\$20
Champion Novelty (peloric, feathered, spots)	\$20
Best in each size class (4) for each division.	\$10
First Prize card	\$5
Second Prize card	\$3
Third Prize card	Card only

Plant name tags are to be firmly attached (using a small piece of BlueTac or similar), to all plants exhibited. (Plant name tags are available from the Registrar of Judges)

Open Division - Green, First Division - Buff, Second Division - White

The name of the plant is to be neatly written, and the Exhibitor number in the bottom right hand corner
If the plant is a first time flowering seedling a yellow dot is to be attached to the label (available from Registrar)

After judging, a blue dot attached to the label indicates a first prize has been won by that plant. A red dot indicates a second prize, and a green dot indicates a third prize. Plants can win prizes in more than one class.

10

Note also. No plants will be judged at the monthly meeting night (Wednesday August 23rd).

Take out of the show is from 5pm on Sunday 3rd September

Shopping hours

Sunday 9.00am to 5.00pm, Monday to Friday 8.00am to 9.00pm, Saturday 8.00am to 5.00pm

Some growing advice from a Master Grower from Sydney, Bryan Janes
Bryan has just won Reserve Champion at the Australian Cymbidium Society (Sydney Cymbidium Club) show, over the weekend of 12th and 13th August 2023, with a superb flowering of Coraki Glowing ‘Kentlyn’. He also won Champion Specimen plant with Justis Pearl ‘Bee Jay’.

Growing mix. One Large Coco Peat block, two ten litre buckets of perlite, and two kilograms of medium shell grit

All plants sit in saucers of water all year round. A healthy plant will soak up the water in the saucer quickly. A plant not soaking up the water is not growing well, and should be checked.

Foggers are used at midnight for 15 minutes, from November until February to drop the temperature, which initiates flower spikes.

Fertilise with Peters Cal Mag Finisher at 500 parts per million, all year round. Hand watering via hose once per week.

Use Campbells Rustica as a top dressing with a teaspoon per 20cm (8 inch) pot, or 2 teaspoons per 25cm (10inch) pot.

Growing house cover is 50 percent cloth, with solar fans at each end.

Fertiliser tank is aerated with a fish tank air pump.

At start of each month, soak with phosphoric acid, 1ml per litre per litre of water.

Editor’s note. The above might initiate some thinking and changes to how you grow your plants.

Our guest speaker for the August meeting, John Gate, will have some plants for sale at the meeting. Of particular interest is a very high quality blackish red standard with excellent shape. Pepper Blaze ‘Blackjack’ has been available to a few growers in Sydney, but not been available here previously. He will also have some backbulb propagations from some of his high quality breeding plants, including some from the original plants (not clones). This is a great opportunity to get some great plants which are currently used for breeding.

**At left
Pepper Blaze ‘Blackjack’**

Note This flower has been out for over a month and is way past it’s best

It is big and bold

NEUTROG
Biological Fertilisers

**.The next Meetings of the
Cymbidium Orchid Club of South Australia Inc.**

**On Wednesday 23rd August 2023
at the Burnside Assembly Hall,
corner of Greenhill and Portrush Roads. Dulwich
The main meeting begins at 8.00pm.**

**There will be no judging of plants at this meeting due to the upcoming
West Lakes Spring Show**

The single flower competition Will take place.

John Gate, a leading hybridizer from Sydney will tell us about the plants he uses in his
fabulous breeding program.

There will be lots of photographs of the parents he is using.

Reports from Sydney tell us of his superior flowering techniques. He may even discuss
how he gets fabulous flowerings.

***** Don't miss this meeting *****

The beginner's group will meet on the stage at the front of the hall, starting
at 7.15pm SHARP (to allow them to view plants and purchase raffle tickets)
Last month the Second Division growers had a great display of plants for judging.

Keep it up

Newcomers are very welcome

Dates of monthly meetings through the year 2023 are below.

Always the fourth Wednesday, February to November

August meeting	23rd	August	John Gate	Hybridising
Spring Show	26th	August to 2nd	September	at West Lakes
September meeting	27th	September	Graham Guest	(Guest Orch)
October meeting	25th	October	Eddie Ng	local hybridiser
November meeting	22nd	November	Malcolm Osborn	History
Christmas Dinner	Thursday	30th	November	

No meeting in December or January.

Annual General Meeting February 28th 2024

A lucky badge, and a lucky birthday prize will be given each meeting. You must wear your club
badge to be eligible.

Please notify your birthday month to John Howard if you wish to be in the lucky birthday promo-
tion.

Cymbidium Orchid Society of Victoria Spring Show 8, 9, 10th September

spring

SUDDEN IMPACT! FOR LAWNS

Get your lawn spring ready with the NEW Sudden Impact for Lawns + POPUL8 2L Hose-On - a complete, biological fertiliser in a liquid form, specifically designed to provide a full range of nutrients and biology in a soluble format, able to be taken up by the plant through the leaf, roots and soil.

- Suitable for all lawn types as well as hedges, trees, bamboo ferns, conifers, in fact ALL non-flowering plants!
- Combined with POPUL8 to promote nutrient cycling and liberation, fix nitrogen, produce growth hormones and improve resilience to plant and soil pathogens
- Includes Nitrogen, Phosphorus, Potassium and Macronutrients for colour, growth, root development and resilience to temperature and drought stress.

Available exclusively at Bunnings.

NEUTROG
Biological Fertilisers

Most members should know that we have a really good, mates rates deal with Neutrog, to purchase their products at very special prices.

Generally, a club member needs to register on line via the Neutrog Web site. You will be given an account, and can set up a password to access the site to place an order.

Some members experienced difficulties in setting up an account last month. To ensure this does not happen in future, set up your account NOW. Contact Neutrog directly if you experience problems.

**There are four (4) times each year when you can order product, then collect it a short time later.
We get very discounted prices on all products.**

There are a small number of members who cannot order on line, through either not having access to a suitable computer, or have had difficulty in logging in and placing their order.

If you are in that position, the club is about to set up a club account which you will be able to access by contacting a nominated member (Graham Morris), who you can place your order with and make your payment. You will need to make arrangements with him, on how and when to collect the order.

Dates of the orders and delivery are below. Orders can be placed well before the closing dates to avoid missing out.

There are very substantial savings to be made by purchasing Neutrog products through this on line store.

***** If you are not presently a club member, it could be worth joining, just to access discounted Neutrog products. *****

**Summer
Delivery**

**17-18th November 2023 Date depends on collection point
Store closes 6th November 2023**

19

**I will try to get a product list and price list for those interested in this service.
It should be available at each monthly meeting**

Garden City Plastics SPECIAL

September 2023

10-12 Hakkinen Road, Wingfield, SA 5013

30% Off Orchiata Bark

Available 1st September until 30th September 2023

Neutrog are great supporters of our Club.

Please support them wherever possible and tell others about them

The Cymbidium Orchid Club of South Australia, was actively involved in developing and testing Strike Back for Orchids and endorses it's use.

JOIN OUR NEWSLETTER

Our monthly newsletters and planting guides provide the ultimate resource for passionate gardeners to get the most out of their soils and plants.

By signing up using the QR code below, you will have access to stories about gardens across Australia, exclusive Neutrog updates and our recommendations for feeding, planting and garden maintenance each month.

Rats and mice are active in our gardens at the moment. First Strike Rodenticide is very effective in controlling these pests.

Available from Graham Morris 0419 823 724. Call if you need some.

Packs of 10 baits \$5.00, Packs of 25 \$10.00

Available at the Trading table at the back of the hall, on meeting nights.

21

This new product is getting good reviews from growers everywhere who have been using it for some time. Rodents cause lots of damage if not controlled. Be prepared. Have some on hand.

Future monthly meetings for 2023.

The guest speakers programmed for the remaining meetings this year are amazing. In my opinion, they are the best ever assembled for an orchid club, anywhere, ever.

If you are a member, don't miss any of them. If you are not a member, consider joining immediately so you don't miss hearing what they have to say.

August John Gate, one of Australia's leading cymbidium hybridisers will discuss his breeding

September Graham Guest from Guest Orchids (also New Horizon Orchids agent) will talk

October Eddie Ng, a local hybridiser who is achieving amazing results will amaze you

November Malcolm Osborn, a foundation member will talk about the club history

Miss any of these meetings and you miss some huge opportunities to expand your knowledge
